Oh Crap! Potty Training – by Jamie Clowacki

Here's the good news: your child is probably ready to be potty trained EARLIER than you think (ideally, between 20-30 months), and it can be done FASTER than you expect (most kids get the basics in a few days--but Jamie's got you covered even if it takes a little longer). If you've ever said to yourself: ** How do I know if my kid is ready? ** Why won't my child poop in the potty? ** How do I avoid "potty power struggles"? ** How can I get their daycare provider on board? ** My kid was doing so well--why is he regressing? ** And what about nighttime?! Oh Crap! Potty Training can solve all of these (and other) common issues.
